Cosmetic Condition:

The drone body is broken while lost control in flight and fell approximately 5ft into water. The propellers are intact on 3 of the motors. Both remotes shows considerable wear with many scratches and scuffs but has been cleaned. The Batteries is currently showing bars of charge, we are not able to test it. The gremsy gimbal is intact, we are unable to test it. Please view our close up photos, as these are taken of the actual item being offered for sale.

Functionality Condition:

The flight system and landing system does not work properly. The drone remote does turn on but needs to be charged (the chargers for the remotes are not included). The drone does power on but the batteries need to be charged.
