Effective November 5, 2024, the FAA Civil Aviation Registry has removed electronic access to Work in Process (WIP) from non-FAA third parties including title escrow service companies such as Aero-Space Reports, Inc. ("ASRI"). This change in policy is in conjunction with FAA Order 1370.121B, FAA Information Security and Privacy: Policy, which prohibits the disclosure of personally identifiable information (PII). WIP documents have not undergone examination for PII. Therefore, the FAA has determined WIP documents are unavailable for viewing or disclosure and access to WIP documents is prohibited by third parties. Upon examination by the FAA Registry personnel for PII, the documents will be made available for third party viewing. This shall act as Notice that as of the date of this title search, there are WIP documents that ASRI personnel are unable to view. As such, ASRI's title report notes those WIP documents as potential title defects until such time as the documents is made available by the FAA Registry. ASRI disclaims any warranty or liability relating to the unidentified WIP documents noted to the extent the closing occurs prior to disclosure of the WIP by the FAA Registry.
